

SCHEDULE COURSE DELIVERY METHODS

Framingham State University (FSU) will be offering courses in multiple delivery methods.

Course Expectations - All of the course delivery methods listed below are **not self-paced**. Faculty provide a list of topics and assignments with due dates for the semester in the course syllabus. You should expect to spend a minimum of 12 hours per week on **each** course; this will include any **FACE-TO-FACE** or **REMOTE (Synchronous)** class time.

Please note the following definitions:

Synchronous - The course meets at specific days and times, which are listed in the course schedule, and you will attend class at those specified times. For lectures, discussions, and presentations there is real-time interaction between the faculty and the students.

*Synchronous refers to both **FACE-TO-FACE** (i.e. in-person on campus) and **REMOTE** delivery methods. (Examples of remote include Zoom, Canvas, or other similar platform).*

Asynchronous – The course or a portion of the course has no meeting days and times. You will not attend class at a set time, but rather access pre-recorded lectures and/or digital curriculum materials at a time of your own choosing but within the timeframe specified in the course syllabus. Interactions between faculty and the class occur through FSU email, discussion boards, social networking, and/or collaborative documents.

*Asynchronous refers to the **ONLINE** delivery method.*

Hybrid- A combination of *Synchronous* and *Asynchronous* delivery methods.

On the Course Schedule, as viewed through myFramingham or the Student Schedule Planner, please see Instructional Method and Building for the information regarding the delivery method for each course section.
