## MINOR IN ARTIFICIAL INTELLIGENCE (5 Courses)

Sponsored by the Mathematics and Computer Science Departments. Artificial Intelligence has the potential to solve complex problems in a variety of fields. Students successfully completing the minor would gain skills in programing, mathematics, and artificial intelligence. Only two (2) courses may be applied to the student's major requirements.

## Notes:

- Courses in the minor may also be used to fulfill General Education (Gen. Ed.) requirements (see notation following course title). Depending on a student's major some Gen. Eds. may already be fulfilled.
- A minimum of three (3) course-credits (12 semester hours) in the minor must be completed at Framingham State University to meet the residency requirement.

## Four (4) required courses:

$\qquad$ MATH 219
Calculus I
MATH 226
Linear Algebra and Applications
CSCI 130 Computer Science I Using Java
or CSCI 156 Python Programing for Applications
CSCI 300
Artificial Intelligence

## Choose one (1) course from the following:

$\qquad$ CSCI 490
CSCI 495
Independent Study in Computer Science
Internship in Computer Science
DGHM 110
Introduction to Digital Humanities
ENVS 333
MATH 490
Digital Field Methods: Drones, Data, \& Artificial Intelligence
MATH 495
Independent Study in Mathematics
Internship in Mathematics
PHIL 102 Introduction to Ethics: Why Be Moral?
PSYC 236 Psychology of Learning
PSYC 263 Cognitive Psychology
