

Wireless and You @ FSU

Framingham
State University

Framingham State University has an expansive wireless network to provide network and internet connectivity to the members of the FSU community, including faculty, staff, students, guests, and visitors. We also support a wide array of devices including laptops, mobile phones, tablets, gaming consoles, streaming devices and many more. Please review the connection options below and follow the instructions for the solution that best fits your needs.

Faculty, Staff and Students

FSU_Wireless is a secure wireless network for faculty, staff, and students

Log into **FSU_Wireless** with your Framingham State credentials:

- Student Login format:
student\username
password
- Faculty/Staff Login format:
campus\username
password

Eduroam Guests

The eduroam network is for guests and visitors to FSU from other participating Universities

Connect to **eduroam** using the following credentials:

- Login using your school E-Mail address:
- username@domain.edu
ex. username@framingham.edu
 - same password as home university E-Mail account password

Guests and Visitors

Guests may register their devices on the FSU WiFi Network

Connect to **FSU Guest**

- Open any browser and load the www.framingham.edu web page. The FSU registration page will load
- Follow the on-page instructions to register
- Registrations last three days, after which guests will need to re-register their devices

Game Consoles/Streaming Devices

Student and University owned devices that do not support encryption should connect to **FSU Guest**

- Follow device login instructions as directed
- If you experience issues, the devices may need to be registered at the helpdesk
- Contact the IT service desk with the device MAC address at 508-215-5906 or by E-Mail at IT@framingham.edu

For any assistance please contact the ITS department: Phone: 508-215-5906

E-Mail: IT@framingham.edu
