

Register below for your chance to participate in the most exciting career event on the Framingham State University campus this year, the 3rd bi-annual **Reverse Career Fair and Networking event!** Join us in the **McCarthy Center Forum on April 7, 2017 between 12:00pm and 3:00pm**. Attendance is flexible for employers, stay for a little or a lot, just indicate the times you are available on the registration.

This is an opportunity for **STUDENTS** to network and showcase visual, graphic, web design, business plans, and/or professional writing work to visiting employers. This is an opportunity for **EMPLOYERS** to meet and see professional portfolios, marketing and business plans, and projects designed by potential employees and interns!

Instead of the usual and traditional career fair set-up, **students** would be behind the tables showcasing **their** work, and **employers** would go from table to table to see what you have been working on in and out of class.

Presenting at the **Reverse Career Fair** is intended mainly for **communications, art, graphic and web design majors**, as well as students from our **computer science, marketing, professional writing, and business information technology majors**, but **all** students are encouraged to attend the event. Additionally, there will be a networking area for you and any of your friends to speak with employers for possible internships, part-time, and full-time positions.

REGISTRATION IS REQUIRED

Employers are encouraged to register to be included in an attendee directory and to receive your parking pass: <https://www.surveymonkey.com/r/9HWLZ6J>

Please contact the Career Services and Employer Relations office at 508-626-4625 or careerservices@framingham.edu with any questions or for more information.
